

Full Stack Developer

Summary

Passionate Full Stack Developer skilled in HTML, CSS, JavaScript, React, Node.js, Express, and MySQL. Experienced in building scalable web apps, RESTful APIs, and responsive designs with strong problem-solving skills.

Work Experience

Software Developer Intern

Saleshandy | Ahmedabad

May 2024 – July 2024

- Enhanced data integrity by implementing robust sign-up form validation using JavaScript and React.
- Designed reusable banner components with React and SCSS, improving UI consistency.
- Integrated RESTful APIs via Axios and Node.js, optimizing backend communication.
- Applied custom SCSS to elevate UI and user experience.
- Collaborated with the team using Git and GitHub for efficient version control.

Projects

TradeWheels

Developed a full-stack car buying and selling platform utilizing Node.js, Express, MySQL, Sequelize, and React.

- Implemented mobile-based OTP verification using Twilio.
- Enabled multiple image uploads for cars with AWS S3 bucket.
- Developed test drive booking with Nodemailer email notifications.
- Created a comprehensive filtering system by brand, model, price, etc.

BlogVista

Built a backend API for a blogging platform using Node.js, Express, MySQL, and Sequelize.

- Secured API access with JWT authentication.
- Provided full CRUD capabilities for blog posts.
- Integrated Multer for image uploads and category-based blog filtering.

Collaborative Whiteboard Application

Created a real-time whiteboard app using WebSocket and Socket.io.

- Implemented an intuitive drawing interface.
- Developed functionality for users to create and join multiple rooms.
- Enabled real-time drawing by multiple users within the same room, with instant updates visible to all participants.

Core Skills

HTML5, CSS3, Bootstrap5, JavaScript, Git, Github, React, Node.js, Express.js, MySQL
